

HELI

Reliable special designed instrument

Engine coolant temperature	Charging/vibration
Fuel level	Block of air cleaner
Temperature of Brake Converter oil	Hand brake
Pressure of engine converter oil	Seat switch
LPG pressure	Neutral indicator
Left turning	Safety belt switch
Right turning	Engine alarm
Alarm of low fuel	Alarm of engine oil pressure
Hourmeter	

Back Up Down OK

Standard configuration		
Horn	Front combo lights	Speed limiting valve
Three-spool control valve	Transmission oil filter	Lifting and tilting operation lever
3 stage full free lift mast	Rear combo lights	Tow pin
Power steering	Back-up alarm	Overhead guard
Cam suspension seat	Dual wheel guard/rain cover	Front/rear display
Load backrest	Standard forks	LPG Low Fuel Indicator
Rear view mirror	Integrated electric box	

Optional		
Micro-splined control system	Lifting OTC control system	LED headlights
LED Reading Light	Temper converter oil temperature meter	No hand brake alarm
Dual Air Filter	Optional attachments	Rear grab handle with horn button
Hydraulic Fork Positioner	Rotating seat for LPG	
Rear work light	Swing Out/Down LPG bracket

Heli H3C Series Features
Improved performance
Superior quality

Ergonomics

- > Vibration isolators separate the operator compartment from the main frame and the engine/transmission which absorbs the truck's vibration for increased operator comfort.
- > Engine performance and repositioned hydraulic pump offer quieter and smoother operation and less noise.
- > Improved hydraulic control functions also reduce noise and increase performance.

Operator Comfort - Visibility

- > Operator temperature has been minimized by creating more foot and leg room with plenty of head room under the overhead guard.
- > Visibility has been improved with narrower mast channels and more open overhead guard.
- > Higher contrast LCU display makes it easier to see in all lighting conditions.
- > Comfortable suspension seat is standard with full adjustment for different operators.
- > Low, wide step and grab handle make for easy entry to operator's compartment.
- > Controls and park brake are within easy reach to reduce operator strain.

Increased Productivity

- > Smaller turning radius and hydraulic power steering makes for better turns and easier steering operation.
- > Reliable powershift transmission releases operator from constantly shifting transmission.
- > H3C series hydraulic performance has been enhanced for maximum productivity.
- > Ergonomically designed operator's compartment enhances operator productivity, as well as providing safety and comfort.

Improved Performance

- > All aluminum radiator increases air flow and dissipates heat more efficiently.
- > Smaller steering wheel with lower turn lock-to-lock for quicker turns 35% faster lifting speeds over previous generations.
- > Lifting cylinders are damped to reduce noise and provide smoother operation.
- > Heavy duty powertrain offers exceptional performance in all applications.

Serviceability

- > Hood opens to an 80 degree angle and foot board is removable for easier access to all important chassis components.
- > Electrical system, wiring, and hydraulic hoses are convenient and quickly accessed with access from above and below.
- > All grease points are accessible, including cast steel axle.
- > Lubrication chart is located on front of operator compartment to highlight essential lubrication requirements.

Safety

- > All Heli forklifts for North America meet ANSI (ISO) safety requirements for CE approval.
- > All Heli forklifts have zero-touch with Operable Pressure System.
- > Upstream rear grab handle and horn button allows operator to safely drive in reverse.
- > Strobes, Beacons or Blue Lights and Alarms are all available.
